

Avon Spring Head 2022 -Important points for Coaches

We had more big boat entries than usual in the short courses. To give everyone the chance to race, we are delaying Divisions 5 and 6 by 30 minutes, compared with the times originally advertised on the poster.

Division and Boating times have all been changed to reflect this.

The Long Course Start is still at the same place on the river but the Start/Timing Team will be on the Avon County bank opposite the pontoons, not on the marina pontoons as usual.

The Finish (both courses) has been moved a few strokes upstream.

For the short course, there are big letter signs hanging from the trees on the Minerva bank above the bottom bridge; please make sure your crews marshal as indicated on the Start Order. We have done this not only to separate out the crews but also to make sure crews go far enough above the bridge to be able to turn safely.

Coxes will be weighed.

BROE will be open for subs and payment right up until race day. Please put your own subs in. Please also make sure you have no placeholders remaining. BROE will not accept our results file if there are placeholders anywhere so any crews still with placeholders in after the race will have to be binned.
