

### Split

This is the button you use  
most of the time

If boats arrive very close together  
leave recall till a convenient time

### Recall

Recall when there is time to do it.  
Practise before watches are started.

First press puts watch in recall mode  
(This appears to do nothing)  
Thereafter repeated presses  
recall the times, last first.  
You can recall as many times  
as you need

When the next time has to be recorded  
just press the **SPLIT** button  
(The watch gets out of recall automatically)

On/Off  
Do NOT Touch  
Leave watch  
running

LAP/CUM  
DO NOT  
TOUCH

### START - STOP

#### DO NOT TOUCH

If you do, use the spare watch  
and re-start the stopped watch  
at a convenient time - an exact number  
Of 5 minutes after the hour
